President Bovard reported that the matter of dogs had been taken up with the County Commissioners and Pros. Atty. who reported their was no law on the Statue Books to take care of the Dog situation with reference to the Peace of Mind of "Doc" Farley and his neighbors but the Commissioners sympathized with the condition of Doc Farleys Mind. Also the matter of Dyke as asked for by Carl Coad, the matter was taken before the Commissioners after some discussion the Commissioners did not think it feasible to build a Dyke as it no doubt would cause other land owners flooded lands account of Dyke being constructed. Commissioners thought a better method would be to build around 300 feet of road and black top same. The State would furnish the black-top and the expense of same be incurred by the Township Trustees.

There being no further business Meeting adjourned to meet the evening of April 13th. 1945.
